GAJJALA ASHOK KUMAR REDDY

kurnool, Andhra Pradesh, 518004 | 88974 90597 | gajjalaashok75@gmail.com
LinkedIn-Profile | Github-Profile | Introduction-Portfolio
Work Email: 239X1A3242@gprec.ac.in

PROFESSIONAL SUMMARY

Computer Science and Engineering (Data Science) student graduating in 2027, seeking entry-level opportunities in software development and AI/ML. Built practical projects including GakrCLI, a terminal-first coding agent unifying 200+ model providers behind one CLI workflow, and Scout-It, an AI-powered toolkit for web search and content extraction. Experienced designing robust backends, clean developer experiences, and intelligent assistant-style systems, backed by hands-on internships and certifications in AI/ML, data science, and full-stack development. Focused on performance, reliability, and shipping tools that solve real problems.

EDUCATION

Bachelor Of Technology | Computer Science and Engineering (Data Science)
G. Pulla Reddy Engineering College | Kurnool
CGPA: 7.9/10 | Focus: AI/ML, Data Science, Full-Stack Development — 2023 — 2027

Intermediate | MPC
Narayana Junior College | Pulivendula
Mathematics, Physics, Chemistry | Score: 948/1000 — 2021 — 2023

Secondary School (1st to 10th)
Raviteja Concept High School
10/10 GPA | 586/600 Marks — 2021

SKILLS & ABILITIES

- **Programming:** Python, Java, JavaScript, C, SQL, Bash
- **AI & Data Science:** Machine Learning, Data Analysis (NumPy, Pandas), Hugging Face Transformers, Model Integration & Inference, AI Agent Development, MCP Integration
- **Web Development & APIs:** HTML, CSS, Responsive Design, REST API Integration, Flask, FastAPI, React , Node.js / Bun
- **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Docker (Basic) , Hugging Face Hub, Kaggle, Google Colab, Netlify
- **Software Engineering:** Debugging , Software Testing , Problem-Solving , Code Optimization ,API Testing ,Version Control

PROJECTS & EXPERIENCE

GakrCLI
Live Site | Repository | npm Package
Built a terminal-first AI coding agent unifying 200+ model providers — OpenAI, Anthropic, Gemini, DeepSeek, local Ollama, and more — behind one CLI workflow, with file edits, shell commands, multi-turn sessions, MCP tool integration, agent routing, a companion VS Code extension, and an optional headless gRPC server.

Scout-It
Live Site | Repository | PyPI Package
Developed a Python toolkit for AI-powered web search and content extraction via DuckDuckGo with automatic fallback and a five-layer extraction strategy that cleans, scores, and structures article content, plus dedicated search modes for images, news, video, and GitHub/social data from a single CLI.

INTERNSHIP

Full Stack Web Development Intern – DevIt | Live Site

Developed and enhanced features for HippocampOS using modern full-stack development practices, including responsive UI design, REST API integration, authentication systems, database CRUD operations, and performance optimization, while collaborating in agile development workflows.

CERTIFICATIONS & TRAINING

- Introduction to Data Science — Infosys Springboard (2026)
- Real-Time Internship Program — Devit (2026)
- AI/ML Internship — InternPe (2026)
- NPTEL, Entrepreneurship — IIT Madras / Skill India (2025)
- OutSysLayer Hackathon (Participation) — ByondCampuz, GPREC (2026)
- Quantum Fundamentals Program — Amaravati Quantum Valley, Qubitech, WISER (2025–26)
